SECOND EDITION

February 7, 2019, Hotel The Lalit, Mumbai, India

## Roadmap for Application of Industry 4.0 in Indian Textile Manufacturing

Use of  
Internet of Things  
Artificial Intelligence  
Robotics  
3D Printing  
Big Data and Blockchain  
in Textiles

The second edition of Textile 4.0 is the **level Next**, Getting Ready for Implementation!

### Background on Textile 4.0

Textile 4.0 is an interpretation and application of Industry 4.0 in textile perspective. In its second edition, the conference aims to further educate and focus on application and implementation in textile manufacturing. Textile 4.0 is the future of textile manufacturing and upcoming factories shall have all technologies and processes based on such automation and advanced digital tools. When the competing countries are already implementing this new concept, India also should gear up for the same.

### The Second Edition

The second edition of Textile 4.0 is the level next, taking it forward from the first ever and highly successful conference on this subject held in March 2018 which introduced this new concept. This edition of Textile 4.0 would be a micro view and shall focus on implementation and application of the Industry 4.0 in Indian textile manufacturing.

Textile industry being a long and complex manufacturing process, starting from the fibre as a raw material and taking it through Spinning, Weaving or Knitting and Finishing as final finished products which can be Apparel Fabrics or Home Textiles or Technical Textiles. This needs a deep and prudent understanding to evaluate techno-commercial implications to make a winning case of using this new technological wave to be Future Ready!

### Textile 4.0: Glimpses of the First Edition

Chief Guest, Dr. Kavita Gupta, IAS, Textile Commissioner, Ministry of Textiles, Government of India lighting the lamp and inaugurating the Conference.

Inaugural Address by Chief Guest Dr. Kavita Gupta, IAS, Textile Commissioner, Ministry of Textiles, Government of India

Key Note Speaker, Mr. R. D. Lidashi, President-Polyester Chain, Reliance Industries Limited.

Theme Presentation by Mr. Shrikant B.

## Conference Broad Topics

### Industry 4.0: a Game Changer in textile manufacturing industry?

Statistically speaking and a macro view on techno-commercial advantages possible in textile manufacturing through the textile technology perspective.

### Can Industry 4.0 help in integrating different textile processes of Spinning, Weaving and Finishing better?

Be these decentralized manufacturing within the composite structure, a better integrated manufacturing can be much faster and efficient.

### Textile 4.0: Implementations & Applications in manufacturing

End to End technological advancements in manufacturing sectors and processes:

Spinning • Weaving • Knitting • Finishing • Digital Printing • Garmenting

### From 'fibre to dyestuff to colour management', the integration from material to finished products

All ingredients and raw materials starting from processing or manufacturing of fibres to manufacturing and processing of dyes and chemicals and colour management; the integrated, connected and complaint materials form the value chain, Textile 4.0 goes beyond just being a technological concept.

### Textile 4.0 would touch upon all related technological updates, their connectivity and contributions in textiles
