ABOUT THE CONFERENCE

The Global Textile & Apparel Industry: Sustainable Technologies" is a specialized conference dedicated to exploring the intersection of technology and sustainability within the textile and apparel sector. This conference serves as a platform for industry professionals, researchers. There will be a big opportunity of augment export potential and better business relation between two countries.

KEY OBJECTIVE OF CONFERENCE

Showcasing Sustainable Technologies : Presenting the latest advancements in sustainable textile manufacturing, including eco-friendly materials, energy-efficient processes, and waste reduction technologies.

Facilitating Knowledge Exchange : Fostering collaboration and knowledge sharing among industry stakeholders, researchers, and technology providers to accelerate the adoption of sustainable technologies.

Addressing Industry Challenges : Identifying and discussing key challenges faced by the textile and apparel industry in integrating sustainable technologies into their operations, and exploring potential solutions.

Promoting Innovation : Highlighting innovative approaches to sustainability, such as digitalization, automation, and smart textiles that have the potential to revolutionize the industry and minimize its environmental footprint.

Exploring Policy and Regulatory Implications : Examining the role of government policies, industry standards, and regulations in driving the adoption of sustainable technologies and promoting responsible practices.

Engaging Stakeholders : Providing a platform for meaningful engagement and collaboration between industry leaders, policymakers, academia, NGOs, and consumers to collectively address sustainability challenges.

Inspiring Action : Inspiring participants to take concrete actions towards integrating sustainable technologies into their businesses, fostering sustainability-driven innovation, and contributing to a more environmentally and socially responsible textile industry.

Through keynote presentations, expert panels, technical sessions, workshops, and networking opportunities, attendees gain valuable insights, exchange ideas, and build partnerships to drive positive change and shape the future of the global textile and apparel industry towards sustainability.

OUTCOME OF THE CONFERENCE

The conference aims to provide a positive opportunity, where textile MSME fraternity can benefit in enhancing their cumulative strength. It will also create a sustainability and positive global environment which ultimately will attract high quality speakers, sponsors and participants. It will also help in building the networking and business relationship among the participants from various countries catering to their business needs. The eminent Global Speakers will bring more issues of Global Textile Industry on this platform. This will also provide an opportunity to the global MSME participants to get an insight about the international textile scenario of various countries

Key Topics for Deliberation :

- ◉ New World Order in Textile & Apparel Industry
- ◉ Digital Revolution Driving Sustainability
- ◉ Denims Evolution: Trends, Technologies, and Markets Beyond 2025
- ◉ Global Fibre & Yarn Scenario
- ◉ Technology & Product Development across Textile Value Chain
- ◉ Global Trends & Investment Opportunities Technical Textiles
- ◉ Sustainability in Dyestuff industry

About

The Textile Association (India)

The Textile Association (India), established in the year 1939, is one of the most prominent oldest, the foremost leading and largest National Professional Body of Indian Textiles, Apparels & Fashion, having more than 25,000 strong membership and 27 chapters covering all over India. It has been providing guidance and services of various kinds to the Textile Industry. TAI has more than 8 decades of service to the textile industry to its credit.

It serves as a platform for professionals, researchers, academicians, and stakeholders in the textile sector to collaborate, exchange knowledge, and address industry challenges. The association has a rich history of promoting the growth and development of the Indian textile industry through various initiatives, events, and advocacy efforts.

TAI has a Vision to be a leading internationally reputed Association of Textile Technocrats and Professionals promoting scientific and technological knowledge and training globally with the benchmark performance as well as commitment to professional ethics and social responsibility and the Mission is to build India as the strongest textile centre, encouraging the qualified technical staff and workmen through our activities.

Textile Association (India) is engaged in activities like Knowledge Sharing and Networking, Research and Development, Skill Development and Training, Advocacy and Policy Engagement, Promotion of Best Practices & International Collaboration.

Overall, the Textile Association (India) plays a pivotal role in promoting the interests of the Indian textile industry, fostering innovation and excellence, and contributing to the growth and development of the sector on both national and international levels, which has been recognized by industry leaders and Government agencies.

Association has been publishing a prestigious bi-monthly Peer Reviewed Textile Technology Journal which is available in print and digital version. It is an open access international indexed Journal published over 84 years, devoted for publication of communications embodying the results of original work of Research / Review which covers it only on various Textile branches of Textile Science, Technology.

To add value to our activities and for proper dissemination of knowledge to its members and Indian Textile Industry as a whole, the association has launched its Responsive Website : www.textileassociationindia.org.
